

Identity Chart instructions:

Part 1:

Start by creating a list of **at least 15** words that help to identify you. These can include:

- Ethnicity
 - Nationality
 - Personality traits
 - Qualities
 - Values
 - Beliefs
 - Experiences
 - Groups you belong to
 - Activities you participate in
 - Physical traits
-

Part 2: **Do not start this part until I have given you the template!!!**

- Once you have created your list, begin to put those words - or symbols of those words - on the “stick figure” person template.
- If you prefer to use a different “template” please feel free to do so.
- You should try to be creative by using drawings, symbols, and lots of color.
- Make sure that you include 15 words, make the chart creative, and spell words correctly.
- Make sure to print your ID chart if you create it on a Google document. You will be turning these in on paper for me to grade unless you are fully remote.
- After these are graded, they will be given back to you to put in your time capsules!
